2011 Integrated Crop and Pest Management Update

Friday, December 16, 2011
9:00 a.m – 3:30 p.m.
MSU Pavilion

All Agri-business, Pesticide Sales and Service Professionals, Crop Consultants, and Farmers are welcome to attend! Participants from out of state and Canada are invited.

MDA pesticide credits, CCA MAEAP credits-pending approval
2011 INTEGRATED CROP AND PEST MANAGEMENT UPDATE

For Agri-business, Pesticide Dealers, Crop Consultants, Extension Educators and Farmers

This crop management extension update is for Agri-businesses, Pesticide Sales and Service Professionals, Crop Consultants, and farmers. We will look back at the 2011 crop season and discuss 2012 MSU recommendations for weed, insect, and diseases. Farmers needing pesticide re-certification credits before the end of the year could earn MDA and CCA credits.

With improved grain prices and increased production costs, it is important that farmers and agri-business professionals consider all production management options and remain up-to-date on the latest MSU recommendations.

At this meeting, you will receive up-to-date information on 2012 MSU pest control recommendations and options. This will enable you to make year-end pesticide sales and purchasing decisions for the upcoming cropping season. MSU Extension Specialists will be present to answer your questions.

The program will be held on Friday December 16, 2011 at the MSU Pavilion. The cost of the program is $60 per person, which includes refreshments, lunch, MSU Weed Control Guide for Field Crops (E-434), and other Extension bulletins.

Tentative Agenda

Morning Session 9:00 AM – 12 Noon
FEATURED TOPICS
- Insect Update
